

With Ms Princi

Room 3

Science - we will be working in the area of Earth and Space Science. Students will be learning about how the weather and seasons effect their everyday lives. This will involve weather and seasons in Australia (including Aboriginal and Torres Strait Islander perspectives on seasons) and linking the topic to the learning about seasons being completed in Japanese lessons.

Pod 2A

Science - we will be working in the area of Earth and Space Science. Students will be learning about how the Earth's surface changes over time as a result of natural processes and human activity. This will involve looking at types of soil, and the effects of weathering and erosion on the Earth's surface. We will also look at Aboriginal and Torres Strait Islander views on land management practices.
